Thailand Economic Q1/2023

The Thailand economy continued to improve from the previous quarter, mainly driven by improvement in both foreign and Thai tourists which bolstered services and private consumption. The value of merchandise export increased in line with manufacturing production and private investment, while investment expenditures of state-owned enterprises contracted from the same period last year. On the economic stability front, headline and core inflation decreased mainly due to the high base effect from last year. Bank of Thailand voted unanimously to raise the policy rate by 0.25 percentage point from 1.50 to 1.75 percent, effective immediately.

From : Bank of Thailand, 28 APR 2023
